Living in a bushfire risk area means danger is on your doorstep. The new Australian Fire Danger Rating System is your simplified survival tool.

Fire danger ratings describe the potential level of danger a community faces. Use them to understand and act **before** a bushfire starts.

The new ratings are:

MODERATE

Plan and prepare.

HIGH

Be ready to act.

EXTREME

Take action now to protect life and property.

CATASTROPHIC

For your survival, leave bushfire risk areas.
